

## About Nuzum Photo Senior Sessions

Our senior photo sessions are extremely laid back and relaxed. We are easy going and want you to be able to relax. Getting your senior photos taken can be stressful. We completely understand. We will do everything we can to help you relax. Our photo shoots are NOT time consuming and meticulous. They are energetic and fun. If you are looking to do a lot of indoor portraits, we are not that type of photographer. If you are looking for a few shots indoors and a bunch of edgy outdoor photos then we are perfect for you. We don't spend a lot of time perfecting one shot. If we did that ALL of your photos would look like ALL of your friends' photos. This is your day to be a model. We head outside to some locations of your choice and we snap a ton of shots. You get to have fun and enjoy yourself. We are going to let you enjoy your shoot and look back knowing that you had a great time working with us.

### DOS

- Get a good night sleep the night before your session. It will help you look relaxed and lessen bags under your eyes.
- Chose a variety of outfits. Having both casual and formal outfits with help you to have nice variety in your senior photos.
- Talk to your eye doctor about having your lenses removed from you glasses or burrowing a pair of frames. Lighting in studio and outdoors can cause reflections in the lenses.
- Watch out for stripes and busy patterns. Smaller stripes typically don't photograph very well, larger stripes are more acceptable. Busy patterns draw away from the face, solids always photograph the best.
- Iron and hang your clothes up. Wrinkles on your clothes never look good, especially in your senior photos.
- For girls, if you plan to wear a dress, bring biker shorts or something else that you are comfortable wearing under the dress to allow you to sit down during the photo shoot.

### DONTS

- Don't forget matching sock and shoes. In some of the poses your feet will be in the picture.
- Don't spend a lot of time in the sun, or tanning bed, the days immediately before your session. Sunburn doesn't photograph very well.
- Don't forget any jewelry you want to accessorize your outfit with.
- Don't get a new hair cut the day before you session. Haircuts are best done a week before the session date.

### PROPS

- Pets
- Sports Equipment (ball, glove, uniform....)
- Sunglasses
- Musical Instrument
- Vehicle (please let us know before hand if you want to be photographed with your car)

Relax and have fun.
